BIO

Strategic designer with 4+ years of experience designing and launching digital products from early stages through production. Contributed to defining structure and strategic direction across startups, agencies and corporate environments.

Specialized in translating data and metrics into scalable solutions, with experience in research, definition and complex product design, always aligned with WCAG accessibility standards and a human-centered approach.

My motivation is solving complex problems through strategic design, creating digital solutions where innovation and scalability generate a positive impact.

EXPERIENCE

Strategy & UX · NowEat

2025 – Present

- Ideated the all-in-one product for restaurants (digital menu, Turbo QR, pay by POS, reservations and AI voice agent), built by two people and AI agents.
- Designed the full product experience from scratch, achieving <10 min setup and a estimated +18% sales increase with the pilot.
- Defined product architecture and UX flows prioritizing simplicity over fragmented market tools.

Strategic Design · En Marcha

2026 – Present

- Co-founded a rural social innovation and entrepreneurship lab in La Vera, Extremadura, focused on disadvantaged territories.
- Designed brand identity, communication strategy and website to build institutional credibility and facilitate access to opportunities within the third sector.
- Led territorial research with mayors, associations and end users to define training programs based on real local needs.

UX/UI Designer · Optimiza Recursos

2024 – 2025

- Defined the architecture and initial roadmap, prioritizing features that enabled the team to launch the Robin Luz app and Optidashboard Saas MVP in under 4 months.
- Developed the business plan, created product opportunity maps and conducted research to identify investment partners and grant opportunities.
- Led product decisions working autonomously, prioritizing features based on business impact and technical capacity.

UX Designer · Rank Eat

2024

- Worked in a highly dynamic startup environment under Agile methodologies, where cross-team collaboration was key.
- Translated business and user needs into clear user stories, facilitating development planning and reducing rework in later phases.
- Collaborated with marketing, business and customer support teams to improve the overall experience and support data-driven product decisions.

UX/CX/UI Designer · Innomad

2021 – 2024

- Worked on multiple projects in an agency environment, designing end-to-end solutions in collaboration with business and development teams.
- Identified a secondary feature with high adoption, contributing to redefining the product's strategic focus toward that business line.
- Facilitated workshops with users and stakeholders, contributing to redefining key product features.

Junior UX/UI Designer · Olistiko

2021 – 2022

- Conducted early-stage hypothesis validation, market benchmarking and opportunity analysis for the Olistiko app in its conception phase.
- Qualitative and quantitative research with data that translated into design decisions and helped reduce risks before the build phase.

Sports Program Manager & Developer · Keirle Park Tennis Centre	2015 – 2021
· Led the design of client experience in programs, ensuring engagement and retention. · Designed training programs, managed service touchpoints and developed new offerings such as camps and junior development programs. · Worked with club management to scale services and improve user satisfaction meaning in a 6%/month increase in bussiness revenue.	
Sports Advisor · Queenwood School	2014 – 2016
· Redesigned the junior tennis program, increasing participation by over 20 students per term. · Raised the program's perceived value by 150% through service and experience improvements. · Coached the Tildsley team, achieving a record representation at the tournament.	
Film & Video Editor · Video On	2011 – 2014
· Managed multiple projects end-to-end (from filming to editing), ensuring coherence and quality. · Organized complete editing workflows: narrative structure, color, motion and color grading.	
Camera Operator & Lighting · Yo Vi al Yeti	2005 – 2011
· Shot campaigns for Nike, Kia, Wilson and other brands with high-speed filming, advertising content and corporate productions. · Managed end-to-end video projects, ensuring visual coherence across different teams.
